Journey into the Ear

How well do we understand the ear?
How it works ... What it does ... What it's for ...
and it's potential to heal our brain and psyche?

We can stimulate the brain with sound

The ear muscles respond to sound

Sound forms the foundation of all our relationships.

4 things the ear needs

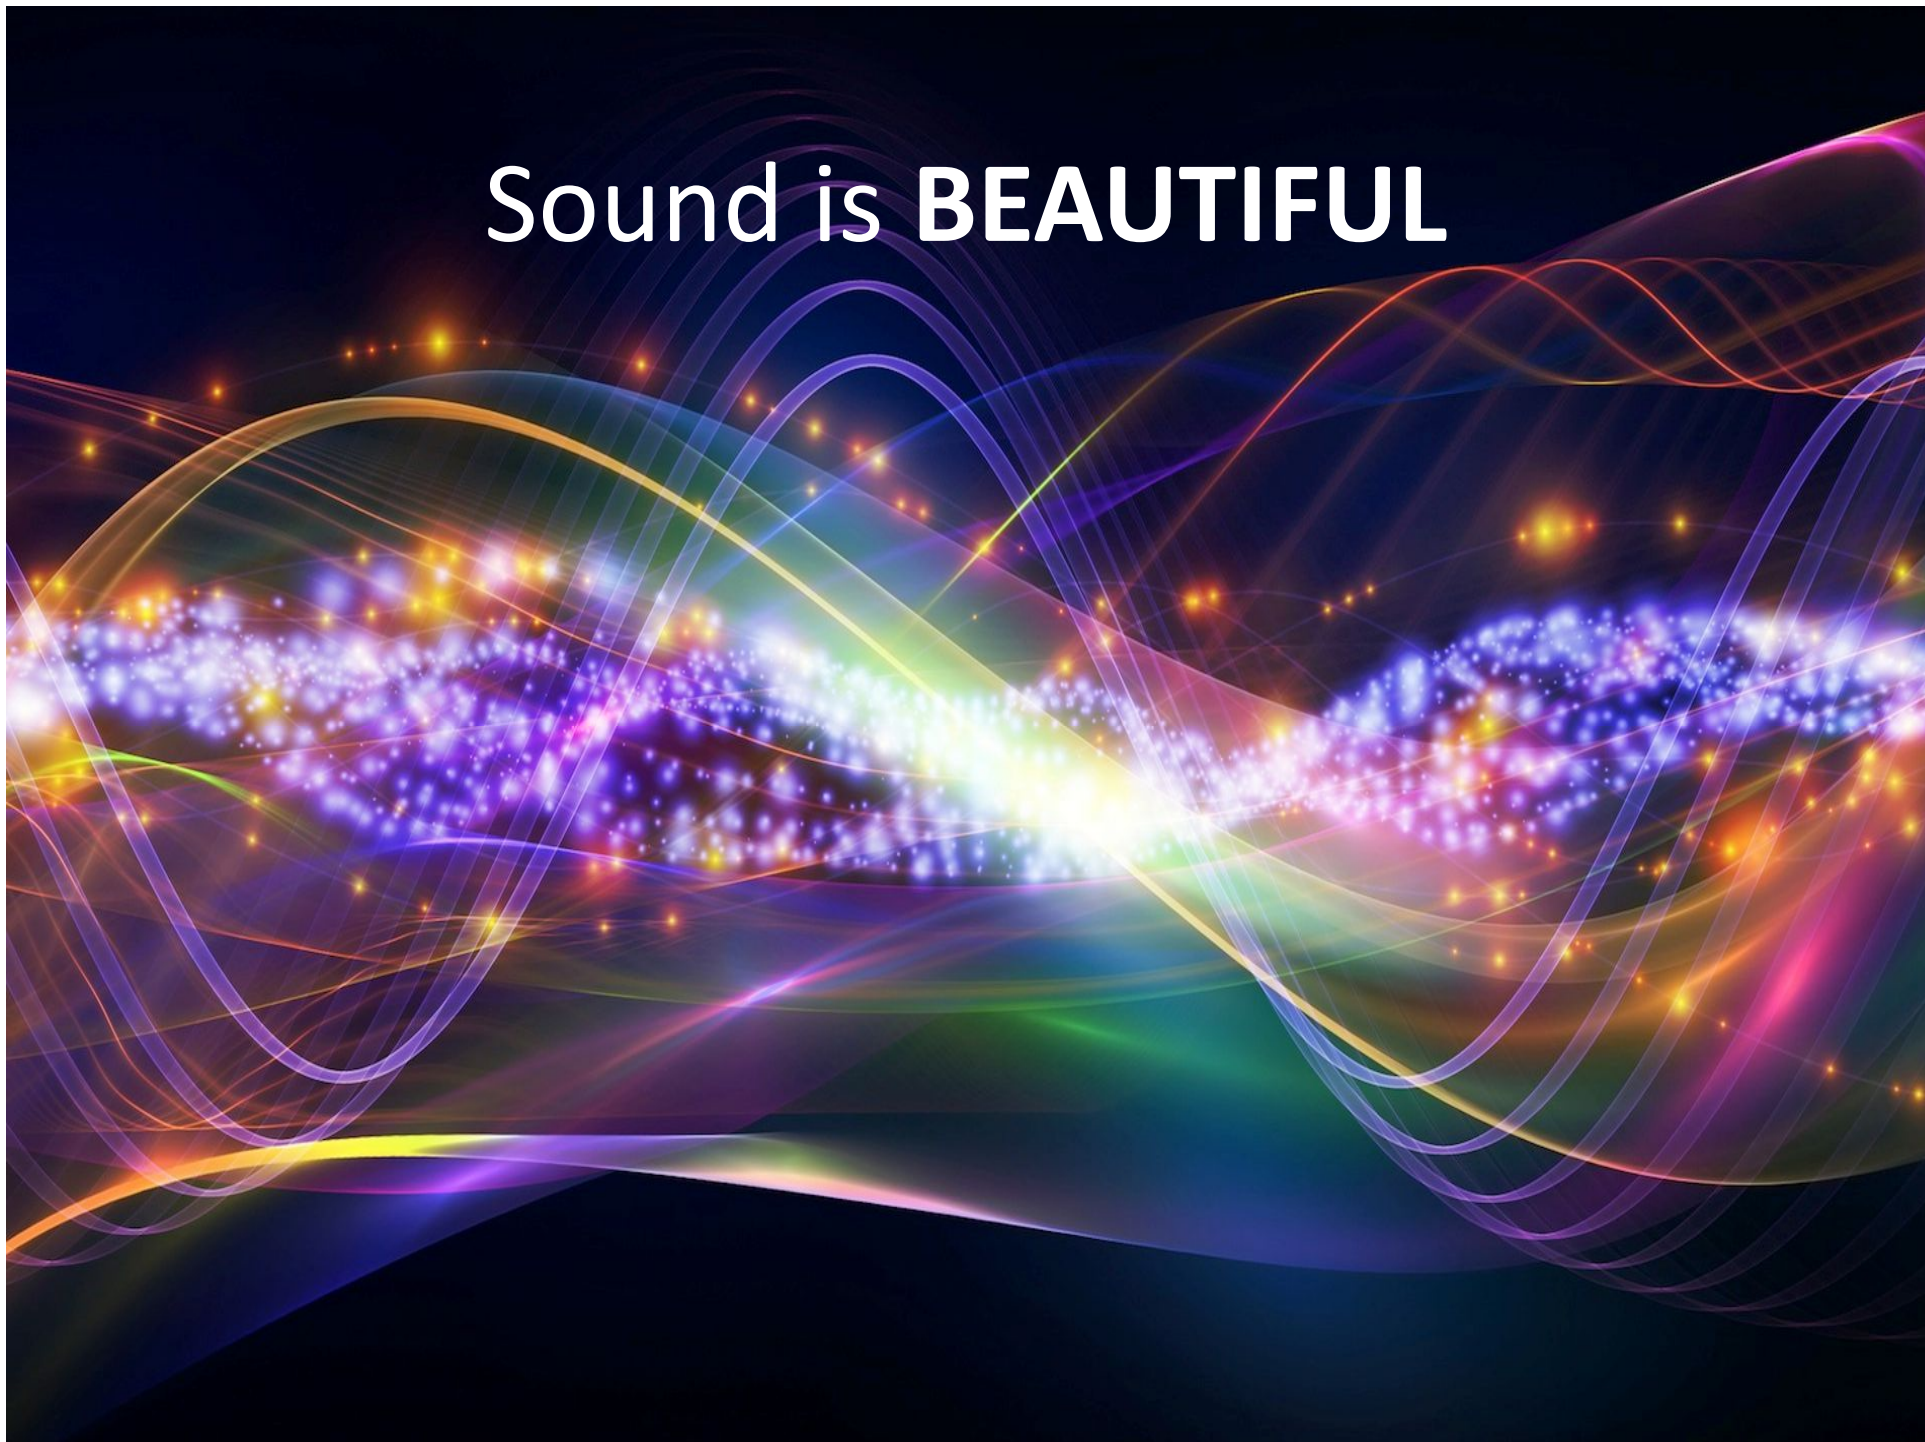

1. Protection
2. Nutrients
3. Warmth
4. Stimulation

Sound is **BEAUTIFUL**

There are many sound therapies

The difference with Tomatis based therapy is that we are reactivating and restoring the physical ear function using filtration and gating with the Electronic Ear.
