A few clarifying questions:

- Two days is highly recommended and is **\$325** per person, which includes the teacher workbook and cards. If someone does NOT need materials, it is **\$200**.
- Do we need to purchase the list of items for each attendee, such as the Blink Cards, or can teachers share these materials? During the training, they can share. However, when they work with students, it will be helpful if they each have them.
- **Equipping Minds in the Classroom \$200 is a recording of our two-day PD with school implementation videos. I was going to include this.**
- ROSES is a 20-hour PD plus over 600 step-by-step videos, priced at \$500 and shareable. Here is an [Overview of ROSES](#)
- Training can be done online.
- In-person training will include travel expenses (hotel, meals, and mileage-averages \$900-\$1000) for two days
